DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - a. Applicant disclosed an inventive concept wherein credit card and authentication information is pre-loaded onto a portable communication device so that it may be easily available for on-line transactions. Applicant securely stores user authentication information and other sensitive information so that it cannot be easily extracted from the portable communication device, copied to another device, or modified. Applicant concept is novel and innovative in the sense that is decrypted the encrypted credit card and secret key with a laser scribe encryption key. Matsushima (US PG PUB NO 2002/0161722) the closest prior art teach a system wherein the user information in each recording medium are encrypted using a public key of a public key cryptosystem, and store a secret key corresponding to the public key, an apparatus decrypt the encrypted user information using the secret key and customize the desired service according to the decrypted user information and the apparatus update the decrypted user information, encrypt the updated user information using the public key, and overwrite the encrypted user information in the locally connected recording medium with the updated and encrypted user

Art Unit: 3621

information. Matsushima et al fail to teach decrypted the encrypted credit card and secret key with a laser scribe encryption key.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

b. *Mayer, Jr. et al (U.S. Patent No. 4,202,626) teach a signature verification and authentication system whereby to provide security in financial transaction access to building and areas.*

c. *Kabushiki et al (EP 0138219) teach a memory card with a data processing section arranged in the card medium for encrypting and decrypting input data.*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to FIRMIN BACKER whose telephone number is 571-272-6703. The examiner can normally be reached on Monday - Thursday 9:00 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell can be reached on (571) 272-6712. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
